

# INVEST IN INDIA

Over 45,000 kilometres  
of new highways by 2015

Over 90,000 MW  
of power generation capacity by 2013

Over 250 million  
telecom subscribers by 2010

1000 million tones  
of cargo handling capacity by 2014

Upgradation and modernization  
of 114 international and domestic airports  
to handle 100 million passengers annually  
by 2014

Indian Railways' passenger carrying capacity  
to touch 9,000 million per annum by 2014

5,000 kilometres of high density rail routes  
including dedicated freight corridors by 2014

India's policy makers are committed to ensuring that infrastructure development keeps pace with 8% GDP growth. Investments in public-private partnerships are bearing fruit across sectors.

The time for *big ticket* investment in India's infrastructure is *now*.

*Profit from the experience.*
